

QUALITY POLICY

Safety Circle aims to be the most preferred service provider in terms of the development & delivery of quality training, audits, content development, and consultancy services in environmental health and safety products and services using vast experience and expertise, and competent personnel. To Deliver this, we are committed to:

Identify, customize, and develop, to meet and enhance our customer satisfaction by fulfilling their requirements.

Meet and fulfill the applicable legal and other requirements of interested parties.

Continual improvement of processes and systems complying with the quality management system of the organization.
